

Dear Hawk-Franklin Team,

Greetings from Data and Statistics Department at Emirates Health Services.

We are pleased to inform you that your solution has been shortlisted by the EHS evaluation committee for a Proof of Concept with EHS. This selection reflects the committee's confidence in your innovation and its potential alignment with our strategic priorities.

As part of this engagement, we would also like to invite you to present your solution at the EHS booth during the upcoming WHX 2026 event. This will provide you a valuable platform to demonstrate the outcomes of the PoC and highlight the capabilities of your technology to a broader audience.

Our team will coordinate with you on the next steps, including PoC scope, timelines, and any specific requirements for the WHX showcase.

We look forward to collaborating and exploring the value your solution can bring to EHS.

Regards,

Dr. Sara AlShaya

Director - Department of Data and Statistics,

Emirates Health Services
